-

EXPERIENCE

SPIKE POINT INFOTECH PVT. LTD.

(Aug 2023 - Present)

Web Developer Intern

- Developed responsive and interactive front-end interfaces using HTML, CSS, JavaScript. Assisted in the design and maintenance of the company website, ensuring consistency and seamless navigation.
 - Utilized PHP to design and develop dynamic backend functionalities.
 - Worked on integrating the front-end and back-end systems to create seamless user experiences.
 - Assisted in optimizing database queries and enhancing overall application performance. Collaborated with senior developers to troubleshoot and debug issues, ensuring smooth functionality of web applications.
-

EDUCATION

B.Tech in Computer Engineering

2024

- Swaminarayan College of Engineering and Technology, Kalol, India

Diploma in Computer Engineering

2021

- Government Polytechnic for Girls, Ahmedabad, India

PROJECTS

Weather App

- **Real-Time Weather Updates:** Used weather APIs to get the latest weather details like temperature, conditions, and forecasts.
- **Choose Your Location:** Made it easy for users to select where they are, so they get weather info relevant to their area.
- **Dynamic Weather Display:** Used JavaScript to show the weather info in a way that changes as the weather does, making it easy to understand.

Company intro Website

- **Planning and Ideas:** Came up with the plan and ideas for the website, making sure it shows what the fake company is all about.
- **Design Work:** Created a good-looking design that makes people interested in the company, using colors, fonts, and pictures.
- **Building the Website:** Used my skills to turn the design into a real website that people can click through and use, making sure it works well and looks nice.

Barber Shop Website

- **Creation of Barber Shop Website:** Designed and built a complete website for a barber shop from scratch using HTML, CSS, and JavaScript.
- **Highlighting Services and Portfolio:** Showcased the services offered by the barber shop and displayed their portfolio, giving visitors a glimpse of their work.
- **Responsive Design:** Ensured that the website looks good and works well on all devices, including desktops, tablets, and smartphones, so customers can access information about the barber shop from anywhere.
